

**A Workshop for First Year Students on Vocational Security, Safety and Health on October 16, 2019**

Tanta University

Faculty of Science

Community Service and Environmental Development

Based on the recommendation of the Executive Committee of Vocational Security, Safety and Health at the Faculty about the necessity of disseminating awareness among students about the role of Faculty security personnel, vocational and laboratory hazards, and how to deal with them, a workshop was organized in cooperation with Quality Assurance Unit at the Faculty and security leaders of the Faculty about the role played by Security Sector at the University and at the Faculty, vocational health and safety, protection from fire hazards and how to use fire extinguishers at labs and auditoriums.
