

Water (WR)

Consumption of treated water

Consumption of treated water
(Tanta University, Egypt)

Consumption of treated water
(Tanta University, Egypt)

Description:

At Tanta University there are two sorts of water that are treated to consume each for a different purpose.

The first one is the treated water to consume for irrigating farms, trees, and landscapes inside the university.

The second one is the treated water to consume for drinking and human use for campus population.
