

Water (WR)

Water Efficient Appliances Usage (e.g. hand washing taps, toilet flush, etc.)

Low-flow Taps (Tanta University, Egypt)

Water sprinklers Tanta University, Egypt)

Description:

Based on its responsibility to rationalize water consumption on campus, Tanta University has taken several measures to conserve water, including expanding the use of water efficient appliances such as low-flow taps and using water sprinklers to irrigate gardens and green landscapes.
