Institution History and Strategic Goals

SWOT analysis FINDINGS

The most prominent challenges facing Tanta University, such as those facing the higher education sector:

- (1) The Challenges facing the application of quality and accreditation.
- (2) Imbalances in graduates relative to the requirements of the labor market.
- (3) Challenges of raising university research capabilities and innovation.

The SWOT analysis highlighted the need **to improve the system and quality of the educational process and vocational training and link it to the labor market, as well as the need to strengthen university research capabilities and support innovation and entrepreneurship.**

Tanta University's strategy

aims to ensure that university graduates have the qualifications required in the Egyptian and Arab labor markets.

Also, this strategy revolves around building a relationship between higher education, scientific research, and the sustainable development plan.

Institution History and Strategic Goals

I) Raising the efficiency of institutional capacity to ensure quality performance

II) Upgrading the educational system and raising the competitive competencies of graduates

III) Strengthening the scientific research system and achieving competitiveness, excellence, and innovation

IV) Activating the axes and fields of partnership and community trust to achieve sustainable development

V) Enhancing internationalization of the university

Collaboration

[Metric guidance](#) [+ Add to Reporting](#) [Export](#) [Shortcuts](#)

International, national and institutional collaboration by Tanta University in the selected year range.

Metric		Scholarly Output	Citations	Citations per Publication	Field-Weighted Citation Impact
International collaboration	58.2%	5,599	75,325	13.5	1.94
Only national collaboration	28.6%	2,757	20,914	7.6	1.08
Only institutional collaboration	9.4%	904	3,937	4.4	0.59
Single authorship (no collaboration)	3.8%	364	1,928	5.3	0.79

Collaboration as a part of Tanta University's strategy was adopted by the research and higher studies sector. About 80 % of university publications were presented in collaboration with both international and national institutes.

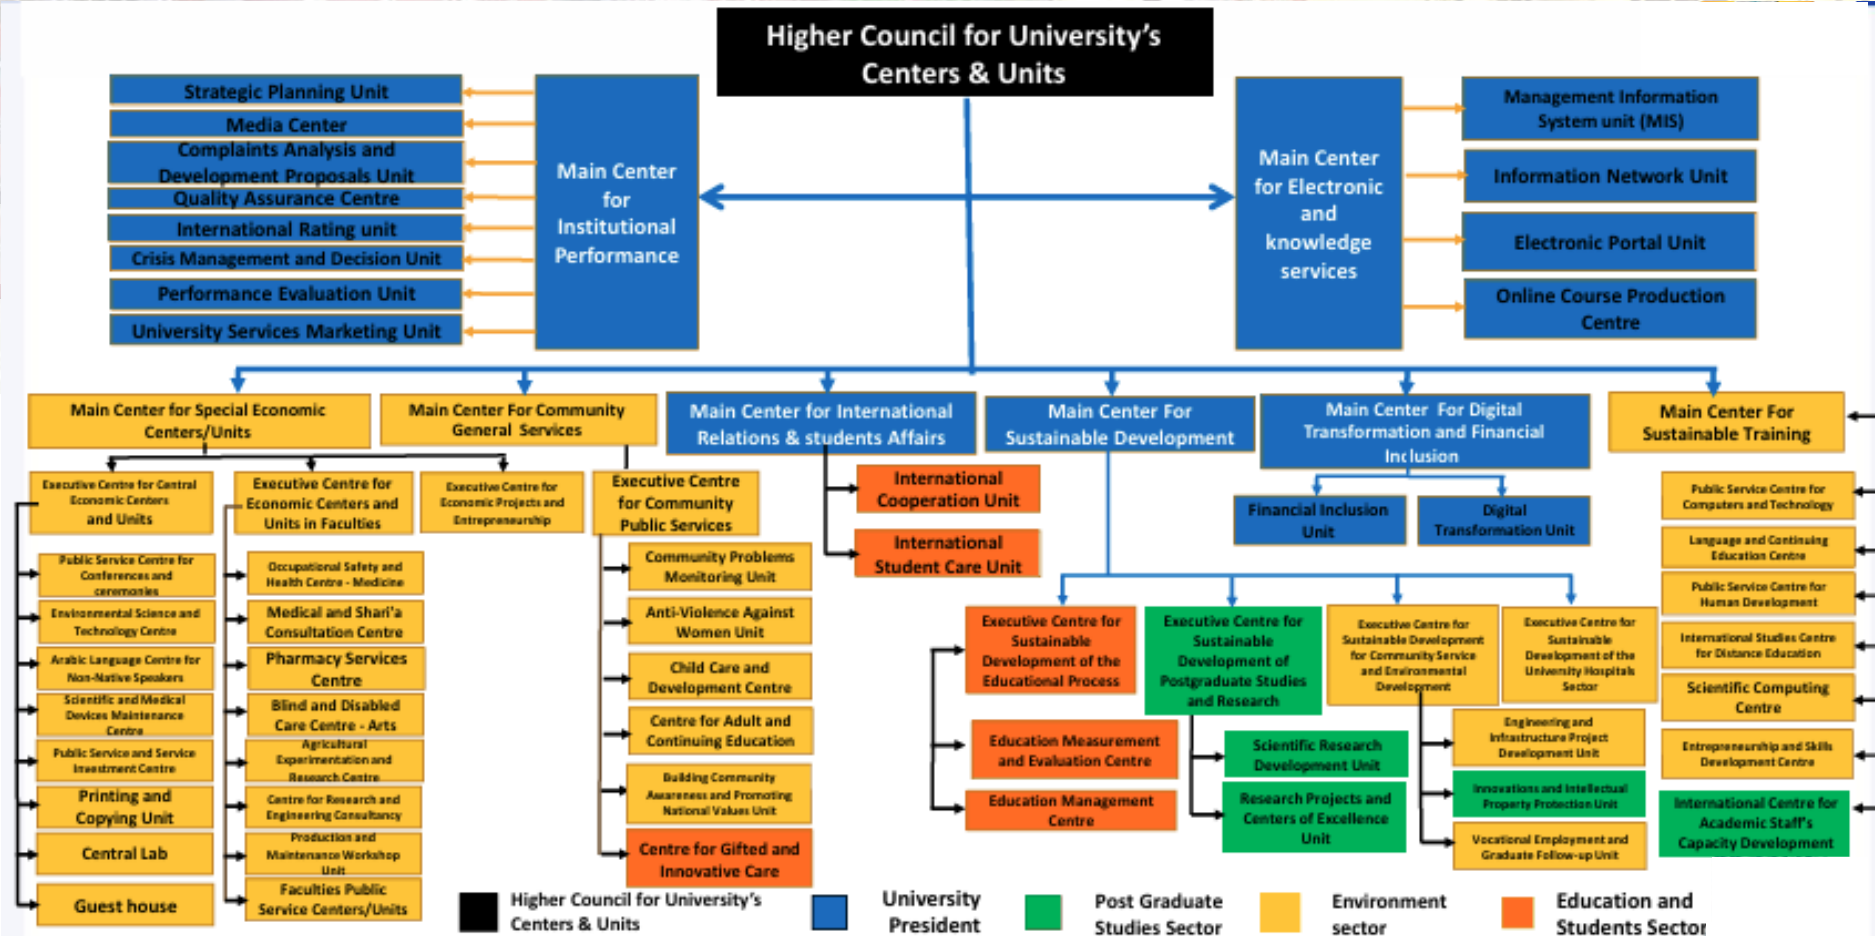

Sustainability Plans

Tanta University is dedicated to creating a sustainable campus that enriches its research and teaching mission while upholding its social responsibility. Recognizing the complexity and interrelated nature of sustainability challenges, the university adopts an ever-evolving approach to achieve sustainability. Tanta University has played a significant role in advancing the Sustainable Development Goals (SDGs), focusing on three key pillars: economy, environment, and society. By striving for a greener, more equitable, and sustainable world, the university embraces sustainability in all academic endeavors.
